Effortlessly beautiful interiors

When selecting a new floorcovering for a commercial interior space, aesthetics play an important role in engaging and inspiring users whilst durability and practicality ensures the floor is fit for purpose. There is a growing trend for interior designers to look more towards intricate flooring layouts that utilise different shapes, sizes and patterns to create a bespoke finish for their clients.

By offering a pre-cut design floor solution, the Massimo Invent range makes creating stunning bespoke design floors simple and eliminates the need for additional cutting time and costs.

Including traditional parquet and assorted tile sizes, each of the Massimo Invent flooring patterns are available in both natural wood and stone effect designs, and can be used solo or in combination with each other for even more choice.

Small Parquet

Available in a traditional 3" x 9" plank size, the Small Parquet collection incorporates three timeless oak effects, plus a sandstone and slate effect tile for a modern twist on a classic parquet floorcovering.

Assorted Wood & Stone

Giving the appearance of reclaimed timber planks and stone tiles, the Assorted collection includes a variety of tile sizes in each box to create a random effect. This effect is further emphasised by the addition of bevelled edges on all sides of the tiles. Each design can also be enhanced by incorporating co-ordinating inlay accessories for a defined finish.
